I guess it's all in a persons point of view, my take on it was that the original report was in the "National Enquirer" and Ron wanted to firmly establish that.

As far as I know everyone from Oprah to Tom Selleck HATES the tabloids, and I felt Ron was trying to make a point as far as the tabloids were concerned.

He made a point of saying that if his father had seen a "UFO" he would of been the first one that would have been told.

Implying to me that he had an interest in the subject, and if his father HAD seen one he would have informed the one family member who WAS interested.

As I said, that was just my impression.

Kay

I did attend a few "Whole Earth Expo" type things when I lived in Bean Town, but doesn't sound like it could touch the "Entertainment Level" that "BeckleyCon" provides.

My husband is from Pensacola, and last June his siser got married, the reception was at (yep, you guessed it!) the Holiday Inn in Gulf Breeze. We spent two nights there before moving to the Parents house on Bayou Grande after the party, wher we stayed for a week.

I dragged a lawn chair out to the beach (?) and spent the late evening cooling my heels, drinking wine and star (?) gazing, saw no red lights! Ah well... Guess I should have talked them into having the wedding THIS month!

If Hoagland would stop and take a breath and do some RESEARCH, and if he had called me, then he would know that:

First, Dr. Marina Popovich DID NOT MENTION THE PHOBOS INCIDENT IN ANY OF HER TALKS. This past spring, while covering an International UFO conf. in Tuscon,

I met Popovich while covering the event for UFO Magazine. I interviewed her over a two day period, and happen to ask Popovich about rumors I heard about the Phobos probe from a mentor of Hoaglands, Z. Sitchen. Sitchen wrote about the incident in his book Genesis Revisited.

Marina Popovich was shocked, yes I did say shocked, that we in the west knew something about this. And as an aside, what is Dickies problem with the idea that maybe, notice I did say maybe, something could be out there now? He, with his meglomaniac attitude, blew it, yes I did say blew it, with Chuck Harder on his For The People program, out of Whitesprings, Fl. a few weeks ago when he attacked Harder on the air over the asteroid story that Harder had spoken about during my guest appearance on his program. Furthermore, Hoagland did something I consider unforgivable in accusing Popovich of being a KGB plant here to spread disinfo on the Mars thing.

What is his proof? If we are going to start calling names, or better yet use his thinking, then I or you or anyone could say the same damn thing about Hoagland and Earl Torun. Torun does work for the Defense Mapping Agency, my heaven, must be CIA, DIA, FBI, NSA, NRO, etc. Take your pick. Hoagland is fond of making grand pronouncements on Mars, Egypt, the Pyramids, and now is claiming he deciphered the crop circles and they relate to the FACE. Oh**please spare me, just how did he accomplish this? At any rate, I will be answering him on the Harder program in reference to Popovich. I arranged her appearance on Hard Copy, I broke the probe story with her, and last but not least, when she returned to the States in June she brought the photo back here that Phobos II took of the "object". To run in UFO Magazine after we have some anaylis run on it.

Andre Eichner sent me a message via netmail that clarifies his interest in Dr. Frederick Bell. He's looking for commentary & reaction from the US, since Bell's an American.

Andre's English is pretty good, but he sent his full description of Bell's claims & videotapes to me in German and asked me to translate. Here it is in English:

Hello Clark!

[stuff cut]

I'll write the following text in german, because I don't know some english words in the text.

[translation]

I've seen a video of Dr. Fred Bell in which he speaks about the technology of interplanetary spacecraft from the Pleiades. He claims that he's been there himself. Among other things, he describes a procedure for hormonal alteration that is required for people [to survive] who travel at faster-than-light speeds.

This procedure [of hormonal "healing"] described by Bell resembles an ancient magical proceeding: "Healers" can even treat people unknown to them by using a photograph of the person and directing their healing energy at it. [Tr. Note: Basically a system of sympathetic magic -- fetishism, in other words -- like that practiced by most shamanist religions as well as ancient and modern sorcerers, "Magikians", etc. -- C.M.]

Bell describes a similar procedure [in the tape] from the

Pleides, with which he and his co-travelers "removed" themselves from the Earth to the Pleides in less than 7 hours. [Tr. Note: The wording here is interesting; he's not talking about physical travel to the Pleides, he's talking of a "removal" to the Pleides, like an astral projection or OOBIE-type experience. -- C.M.]

Bell says that the USA and the so-called Grey aliens work together and intend to ignite Jupiter and use it as a second Sun. [Andre adds that whatever this may mean, he has it from a second source in Gulf Breeze, FL -- C.M.] Moreover, Bell claims the Grey aliens have concluded a treaty with the U.S., agreeing to an exchange of weapons technology from the aliens for a certain [implied: *large*] number of humans for genetic research.

Andre would be happy to hear comments, since Bell's an American.

---[translation ends]-----

Here's the original text:

Ich habe ein Video von Dr. Fred Bell gesehen, indem er ber die Technologie interplanetarischer Raumschiffe von den Plejaden spricht. Er behauptet, selbst dort gewesen zu sein. Er spricht unter anderem ueber eine, fr den Menschen ntige Hormonumstellung fr berlichtgeschwindigkeit. Das Verfahren, was er dort erklrt hnelte einem alten Magischen Verfahren: Heiler knnen eine ihnen unbekannte Person heilen, indem sie ihr Photoals Zielvorgabe fr ihre Heilungsenergie verwenden. Fred Bell erklrt ein hnliches Verfahren von den Plejaden, mit dem sie in weniger als 7 Stunden (seven hours!) die Entfernung Erde ->Plejaden zurcklegen.

F.Bell sagt, das die USA mit den sog. GRAUEN (was auch immer das sein mag, ich habe da noch eine andere Quelle: Eine Sendung von Gulf Breeze, in der die Grauen ebenfalls genannt werden) zusammenarbeiten und vorhaben, den Jupiter anzuznden um eine 2. Sonne entstehen zu lassen. Sie haben mit den Grauen ein Abkommen getroffen, das sie den USA Waffentechnologie geben und dafr eine bestimmte Menge Menschen fr Genetische Versuche bekommen.

Ich wrde mich freuen, Deinen Kommentar dazu zu hhren. brigends ist Bell selbst Amerikaner.

cheers

Andre

According to Jerry Clark's UFOs in the 1980s, I quote regarding Haines, "Between 1964 and 1988 he worked in varying capacities as a scientist employed at the NASA-Ames Research Center at Moffett Field in California. When he retired from government service in 1988, he was chief of the Space Human Factors Office at NASA-Ames. Currently he is a research scientist for the Research Institute for Advanced Computer Science, at Ames Research Center." It is also noted that he has a Ph.D. in experimental psychology and physiology.

Jim, would you call him and clarify what this Space Human Factors Office is and about this other business?

Hi Clark!

I saw an ad for some conference in California which contained the assertion that Fred Bell claims to be a nuclear physicist. Curiously, in the book The Fellowship by Brad Steiger (one of the WORST books I've ever read, BTW) which is written largely about Fred Bell, he is described as a Chiropractor who used to walk around with a pyramid on his head. So how does one make the transition from Chiropractor to nuclear physicist? Only Semjase knows for sure! :-)

Larry is a very nice, very charming man, who seems as credible as your Aunt Clara, and yet what he says is not only incredible, no one who has checked into his story has been able to verify a single thing he says. Col. Halt claims that Warren wasn't even present at the time of the sightings! And Warren's story is very inconsistent between tellings. Just about a month ago, I overheard him asking John Burroughs what Halt and Col. Gordon Williams look like. So how could he have placed Williams at the scene?

For now, I think it would be useful to hold Warren's story in abeyance until we can get more attention focused on the case itself. After it has become generally acknowledged that something strange did happen there, perhaps we can look into some of the stranger allegations.

I have a whole bunch more messages to cross-post from the Science echo regarding the Hudson Valley UFO, but I have been asked not to do so unless Maury Markowitz receives confirmation that his last batch of responses to ParaNet people were posted here. Could someone netmail him at 250/712 and confirm that his messages did appear here?

The conversation has taken an interesting turn, and another respected member of the echo has joined in. I believe I am zeroing in on the basic problem of why Science - or rather, some scientists - cast a jaundiced eye on Ufology. I'm anxious to post the remaining messages here in order to get some feedback, especially from those of you with degrees in science. The message I am now getting from them is that its not good enough that we have an observed anomaly, we now have to PROVE to Science that this anomaly is unidentified AND unidentifiable, by making highly structured and controlled scientific measurements. I thought that was THEIR job....We can't do it because we don't have the money, we don't have the money because we can't get the funding, we won't get the funding until we prove that we have an anomaly to investigate, and we can't prove that we have an anomaly until we do scientific testing on it, which we don't have the money for....are we at an impasse?

Thanks for the message defining MICAP. I hope this'll clarify it to those who werpuzzled or misunderstood the acronym.

KOA radio in Denver (850 on the AM dial) will have two of the ever-popular "Weird Night" programs this month. I don't have the line-up yet, but the dates will be:
October 11 (midnight to 5a.m. -- Thurs. night to Fri. morning)
October 31 (same time) special Hallowe'en show.

This is fine, but it doesn't answer the question of how Larry Warren knows some of the more intimate details about what happened there, considering that the coverup was almost immediate. That brings us to two questions: 1) Is Halt covering up Warren's real involvement because Warren really knows and was not as controllable as the others, or 2) Is Warren a deliberate disinformant provided by the "control group" to further confuse this issue? Burroughs did admit that Warren was in a flight wing which did in fact go out to the area on the second day. Warren seems to be too motivated by other than a desire to acquire profit over 10 years after the fact, to be discounted or held in abeyance. Instead, I think that whatever Warren says should be investigated as vigorously as Burroughs.

If Warren tells a story that is "stranger," perhaps he should be the primary witness to this case?

For now, let's discuss what it is about Larry Warren that Fawcett/Greenwood found so disturbing, and any others who feels that Warren should be placed on hold.
